

# FreeThinkers Team Status Report 1

## Progress Made:

### What we've done:

- Filled in trello board with backlog of stories
- Assigned features to group members
- Assigned stories for the next sprint

### What worked:

- Using discord and the group chat for communication
- Using google drive to store all shared files
- Creating lists and assigning tasks on Trello

### What we struggled with:

- Understanding the full overview of the project (more specifically the timeline)

## Plans and Goals:

- Build a skeleton framework for the web application
- Make a Wireframe (front-end design) for the web application
- Create tests for features
- Add the features for the MVP
- Keep up with deadlines and quality of work
- Meet in class Tuesday and Thursday and if required Thursday after class as well

## Agenda for Meeting with TA:

- Discuss the timeline of the project
- Are we on the right track
- What improvements can we make
