

FreeThinkers Team Status Report 5

Goals From Last Week:

- Continue working on the basic outline of the application to make it look like what we visualize in the UI Framework mock-up
- Complete and make sure all basic features work for the MVP
- Update github to include all the files

Progress Made:

What we've done:

- Added the database for the application
- Added tests for the application
- Added delete and update functionality
- Updated GitHub to include new changes

What worked:

- Using SQLite for the database
- Using unit tests for testing

What we struggled with:

- Styling the application

Plans and Goals:

- Adding registration and log in feature
- Adding reply to a post feature
- Continue having/ presenting good quality work
- Updating the CSS

Agenda for Meeting with TA:

- Ask any questions that might come up when working on the milestones
